- Documentation

You mention that you can use any sanitiser – do you pour sanitiser into the stand or does it dispense from a plastic bottle inserted into the stand ?

- You can use any sanitiser liquid or gel...you can fill the plastic bottle inside.

Can logos be added as well as having different colours ?

- Logos and colours can be made depending on the MOQ and increased cost.

Where do you manufacture the stands ?

- The factory is in Europe.

Can you confirm whether gel can be dispensed ?

- It can have gel or liquid.

So a 2L container dispenses how many doses of sanitiser?

- 2200 to 2800 depending on the client request - it can be adjusted.

What is the weekly production ?

- The capacity of the factory is 20k per week.

Do the dispensers have a warranty and can they be repaired once installed on a site ?

- Yes they have a one year warranty.

Delivery time?

- The delivery time is 7 to 9 days.
(Container / truck has 546 piece).

How is it installed i.e. does it require engineering work to install firmly in the ground or is it literally a free standing unit that comes straight out of a box ready to go?

- The pedal sanitiser will be shipped fully functionable and can be secured to the floor with its anti-theft screws or left as a free standing unit.

It doesn't require anything else than opening the box?

- It is free standing once out of the box and ready to use.

How many are on a pallet (2L)

- A pallet is 24 pieces so multiples of 24.

Weight of 2L ?

- The 2L weight is 15 kg.
