THE FOOT PEDAL SANITISER

Any hand sanitiser  
should be incredibly  
simple and  
easy to use.

Developed in an European aerospace factory  
where safety and high quality are of the highest  
standards

Made entirely from medical stainless steel,  
durable, weather resistant and fully mechanical.

Patent N° 007864160-0001

Entirely manufactured from highest quality materials in a state-of-the-art European aerospace company, the foot pedal hand sanitiser requires no maintenance or electrical outlet.

**Just push the pedal<sup>(1)</sup>**, and you are safe!

**Hygienic<sup>(2)</sup>**, without any risk of contamination

**Universal use**, the provided empty recipients can be filled with any hand sanitiser (and you can use your own bottle type through the **adjustable height control** feature).

**EASY-REPLACE**, with **anti-theft screws<sup>(3)</sup>**, in one minute

**Meter slot<sup>(4)</sup>**, to check the level of sanitiser in the sanitiser recipient

**Entirely made of medical stainless steel.**

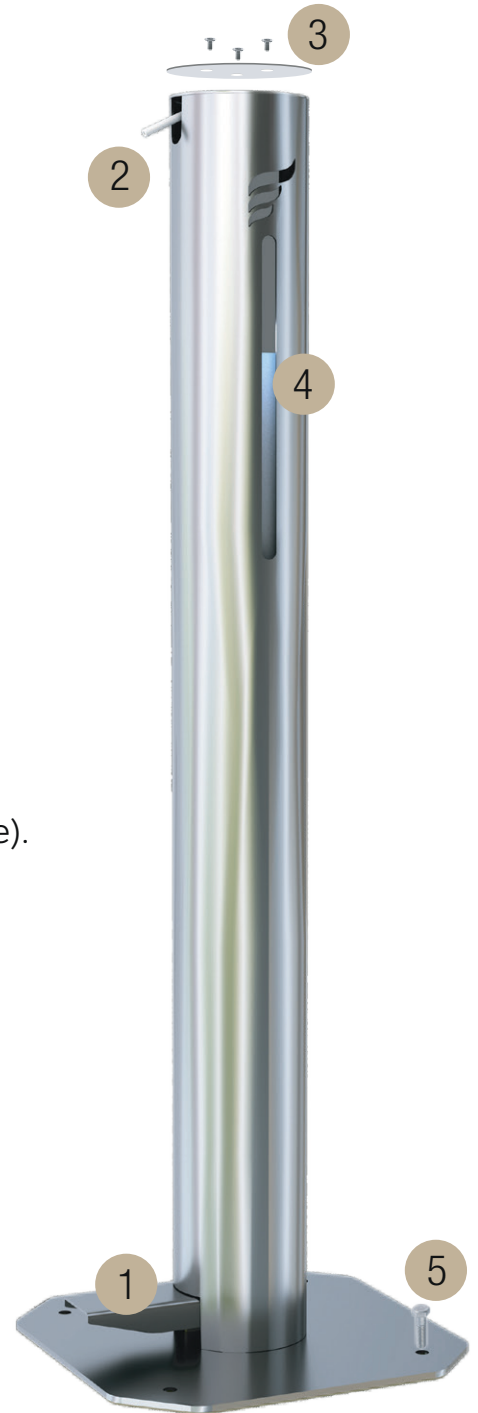

Weather and time resistant. Rust-free.

**Designed for heavy duty**, intense use, being fully mechanical

**Quiet and sealed**, through rubber and sealing protection.

**Welded construction.** No installation necessary unless **bolted<sup>(5)</sup>** to the floor for outdoor use.

**You can install it anywhere** (retail, shopping centres, banks, residential areas, office buildings, factories, hospitals and health centers, schools, fuel stations, gyms or outdoor at airports, bus stations or parks)

H ↑ 987.5mm (38.87 in)
